

2016 Team Elise Sponsorship

Team Elise

Elise, our 8-year-old daughter, was diagnosed with type 1 diabetes (T1D) when she was 12 months. Team Elise started three weeks later in September of 2008 when we participated in the JDRF Walk in Dallas.

In the last seven years, we have had over 1,300 people walking for Team Elise in Dallas, Toronto, Lisbon, Maputo, Little Rock and Abu Dhabi and we have raised over \$90,000 for JDRF!

The walk in Dallas this year will be on Saturday, September 24 at 9 AM at The Lawn at Reunion.

Please visit www.teamelise.com and click on News for all the latest news including a follow-up article in TIME Magazine where Elise is mentioned.

We hope you can be a part of Team Elise this year!

Type 1 Diabetes (T1D)

T1D is tough, especially when you're a kid - everyday, Elise is on an insulin pump that needs to be changed every three days, gets her fingers poked about ten times a day and wears a continuous glucose sensor that needs to be changed every seven days so that we can know her blood sugar at all times.

T1D is a 24/7/365 disease - not only do we check her blood sugar during the day, we also get up at least once a night at around 3 AM to check her blood sugar and give her carbs or insulin, if needed (there are nights where we get up as many as 6 times).

- As many as three million Americans may have type 1 diabetes¹
- Each year, more than 15,000 children and 15,000 adults - approximately 80 people per day - are diagnosed with T1D in the U.S.²
